“Tools for Life” helps locals better deal with the issues of life

Osage Beach (MO) – Community Hospices of America (CHA) announces a new, monthly program designed to help Lake area individuals work through the personal issues that can occur in every day life.

“Tools for Life” is a support program designed by CHA, and provided as a free, monthly service to the public in conjunction with various senior centers and businesses throughout the Tri-County area. This month’s Tools for Life theme is “Hospice, It’s About Living.”

Golden Age Activity Center in Lake Ozark will host the first Tools for Life from 11:30 until 1 p.m., on Jan. 23rd. Experts will be on hand to provide free blood pressure screenings, discuss the symptoms of heart attack and the benefits of Hospice in dealing with terminal illnesses. Attendees can enjoy lunch for just \$5 per person. Pre-registration for Tools for Life is required by Monday, Jan. 21st.

Please call Laura Edwards or Bob Barker at Golden Age Activity Center, 573.348.9000 or 573.365.7365 for reservations. Golden Age Activity Center is located at 748 Hwy D. For information about “Tools for Life” contact Lisa Galloway at 573.348.1566.

ABOUT COMMUNITY HOSPICES OF AMERICA

Hospice is a care concept that recognizes that the entire family is affected by one person’s illness. CHA exists to provide support and care for the terminally ill so they and their families might live and comfortably and fully as possible. CHA services are provided to the patient/family by a team of professionals and trained volunteers. These services are not intended to take the place of care by the family members/significant others, but rather, to guide and support them in the care of the patient.
